My all time favorite!!!! \u2764\ufe0f. A nice collection of farm-themed time-management games. Starts at a slow pace, but gets rather intense on higher levels.

WARNING! 5 of of 12 games (Farm Frenzy, Farm Frenzy 2, Farm Frenzy: Pizza Party, Farm Frenzy 3, Farm Frenzy 3: American Pie) have intense screen blinking in full screen mode on Windows 10 OS. The remedy is to switch to windowed mode (either in the game options or by using Alt+Enter combination).

7/10 for me.. Love the Farm Frenzy series and it's nice to have all of them bundled together. Definitely worth every penny!. I enjoyed Farm Frenzy 3, but Farm Frenzy 4 is...pants.. A great way to get most of the Farm Frenzy games in one package. The only downside is that I'm having intense screen flickering on the first five games in the collection when they are played in full screen mode like other people have been mentioning. Playing in windowed-mode fixes the problem but then you're forced to play the game in a small frame. I should mention I'm using Windows 10.

It's not the worst problem to have and hopefully it'll be fixed at some point but people should still be aware of this issue.. Old but Gold :). This collection is very entertaining if you play it as a straight time management game. However, if your goal is to "Gold Star" every level then this game becomes a challenging time management/puzzle hybrid. About a quarter of the way through each title (using Farm Frenzy 1 as an example) you realize that speed and accurate clicking alone isn't enough to earn the top prize. You also need to figure out what to buy, what to sell and when it's best to do each action, sometimes forcing you to make decisions that go against what appears to be the natural choice.. The bears (or lions or what have you) make the game entirely too random, especially given the precise (and often cheap) timing tricks needed to get some of the gold levels.

Warning alert! This game is fun and addicting! If a puzzle married farming simulator, the baby would be Farm frenzy collection. I am sorry to have played a pirated versions, until I found the whole series for more than modest price on one of Steam sales, compared to how much fun it gave me.

Pros:

- * Kids firendly!
- * 12 games for the price of one!
- * Doesn't require very powrfull PC or a lot of disk space.
- * Engaging gameplay!
- * Puzzles to solve!
- * Zero violence.
- * Lovely cartony graphics.
- * Different from one of those annoying Facebook farming games.
- * High Fun factor.
- * Addictive.
- * Onboarding in this game is one of the best in the genre.

Cons

- * It's an older game so it doesn't scale up to big high resolution screens, windowed mode works like a charm tough.
- * Not a real simulator obviously.
- * It's more a puzzle, less tomagochi, so if you want to grow pets look elsewhere!
- * Music sounds go on repeat all the time, it might annoy some people.
- * Cartoony graphics might not be to some peoples taste.

. Fun game to pass the time. The gold vs silver medals makes you want to play until your entire screen is gold.. I was really enjoying this game until I reactivated nortan and was told that it had a virus on it. Now I can no longer play it which is a pity but if you don't mind the virus it's pretty good. :P. i played this for the nostalgia til like 4am
*goddamn worth it. i love it so much ...has been so much fun since childhood until now :D and guess what this pack has like 12-16 separate games in it :D !! with so much fun ^^ so funny and fun at the same time ^^ \u2665. This collection has more options than the previous pack, All with different stories, similar animals. If you like one, you'd as might as well play them all over time. Having them all gives a little change if you are bored.. I love the Farm Frenzy games and this is an easy and cheap way to access 12 of them. Warning, you do *not* get achievements in this version, but you can get trading cards.*
